PROFESSIONAL SUMMARY

Detail-oriented IT graduate with a Bachelor of Computer Applications (BCA) specializing in Cybersecurity. Strong foundation in networking, system security, and basic penetration testing concepts. Passionate about ethical hacking and continuously improving technical skills through hands-on learning platforms like TryHackMe.

KEY CHARACTERISTICS & SKILLS

- Fast learner with strong curiosity in cyber security technologies
- Self-driven and disciplined approach to learning
- Strong problem-solving and analytical thinking
- Ability to work independently as well as in a team
- Good ethical conduct and professional behavior
- Adaptable to new tools, environments, and challenges
- Strong communication skills developed through sales experience (client interaction, requirement understanding, and persuasion)
- Experience explaining technical or product-related information clearly to customers

Technical Skills

- Basics of Cyber Security & Information Security
- Networking Fundamentals (TCP/IP, DNS, HTTP/HTTPS)
- Linux & Windows Security Basics
- Git & GitHub (Version Control)
- Basic Scripting (Python, JavaScript – learning phase)
- Vulnerability awareness & security best practices

Cyber Security Tools & Technologies

- Operating Systems: Kali Linux, Ubuntu, Windows
- Network & Traffic Analysis: Wireshark
- Web Security Testing: Burp Suite (Basics)
- Security Concepts: OWASP Top 10, Vulnerability Assessment (Basics)
- Version Control & Collaboration: Git, GitHub

EDUCATION

BENGALURU CITY UNIVERSITY

2021-2024

Bachelor of Computer Applications (BCA)
Sambhram Institute of Technology, Bengaluru
Status: Completed

COURSES & CERTIFICATIONS (ADD-ON & CYBER SECURITY RELATED)

- Cyber Security (Add-on Course)
- Cloud Computing (Add-on Course)
- Artificial Intelligence (AI)
- Machine Learning (ML)
- Microsoft Compliance Certification
- Performer of month in sales
